2010	3,450	3,400	78.00	3,600	19.00

¹Includes land and buildings.**AGRICULTURE****A \$51.4 BILLION CONTRIBUTION TO
THE TENNESSEE ECONOMY**

Tennessee's agricultural sector includes farming and related industries, as well as value-added food and fiber products, processing, and manufacturing.

Tennessee's agriculture accounts for 10.5 percent of the state's economy and generates \$51.4 billion in output.

About 347,000 Tennesseans are employed by agriculture, with 127,000 employed (both full and part-time) in agricultural production.

Agriculture input supplying industries – agriculture machinery and chemical products – generate nearly \$3.4 billion in cash receipts.

Over 41 percent of Tennessee's total land area is in farmland, with cropland accounting for approximately 55 percent of farm land.

The state's top five agriculture commodities, cattle and calves, broilers, soybeans, corn, and greenhouse/nursery, comprise about two-thirds of the cash receipts from farm marketings.

Major markets for Tennessee's agriculture and livestock exports include China, Mexico, Turkey, Indonesia, and Taiwan.

Tennessee's equine population is the sixth largest in the United States (based on number of head). Of the state's estimated 210 thousand head of equine, over half are walking or quarter horses.

**DIRECT AND TOTAL EFFECTS
OF AGRICULTURE ON THE
TENNESSEE ECONOMY**

	Direct Effects	Total Effects
Total Industrial Output	\$28.2 billion	\$51.4 billion
Employment	161,983	346,903
Wages and Salaries	\$3.8 billion	\$11.5 billion
Value-added	\$7.5 billion	\$20.1 billion
